PROFESSIONAL SUMMARY

Frontend Web Developer skilled in HTML, CSS, JavaScript, React, Redux, and Tailwind CSS with hands-on experience in GSAP and Scroll-Trigger animations. Passionate about building responsive, high-performance, and user-friendly web applications with clean, scalable code. Proficient in API integration, version control, and modern web development practices.

SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS.
- **Backend:** Node.js, Express.js, MongoDB.
- **Animation Tools**: GSAP, Scroll Trigger.
- **Developer Tools:** Postman, Git, GitHub, Netlify, Render.

PROJECT

Product-Showcase | Live Demo | GitHub
- Developed a responsive Product Showcase app using React, Context API, and a fake product API, ensuring cross-device compatibility and seamless user experience.
- Used React Context API for state management and designed an interactive UI with filters, search, and dynamic product display.
- **Technology Used:** Development React, Context API, HTML, Tailwind CSS, JavaScript, API Integration, UI/UX Design, Responsive Web Design.

AI Copilot Messenger UI | Live Demo | GitHub
- Recreated a modern AI-powered messenger UI with a sleek sidebar, conversation list, and dynamic chat window.
- Focused on clean component structuring and responsive design, showcasing strong frontend development skills.
- Demonstrates UI/UX expertise through an intuitive layout and modular component design, even without real-time backend or AI integration.
- **Technology Used:** React, Tailwind CSS, JavaScript, Context API, Component Architecture, UI/UX Design

Alpha Voice | Live Demo | GitHub
- Built Alpha Voice, a voice-activated AI assistant that processes spoken commands to open websites and perform Google searches.
- Utilized the Web Speech API for speech recognition and synthesis, enabling a seamless hands-free experience.
- **Technology Used:** HTML, CSS, JavaScript, Web Speech API, Speech Recognition, Speech Synthesis, API integration.

NiceAtNoon Boutique Website | Live Demo | GitHub
- Created an interactive website for Nice at Noon Boutique using GSAP, integrating high-performance animations.
- Implemented smooth transitions and engaging hover effects to enhance user experience.
- **Technology Used:** GSAP, Web Animation, Interactive UI, Performance Optimization, Frontend Development.

EDUCATION

Bachelor of Technology, Electronics & Telecommunication Engineering   **7.4 CGPA**
Shri Shankaracharya Institute of Professional Management and Technology, Raipur   July2018 – July 2022

TRAININGS & CERTIFICATIONS

Sheryians Coding School   Bhopal, MP
MERN Stack Developer Training   July 2024 – April 2025
- Trained in MERN Stack (MongoDB, Express, React, Node) with experience in frontend development using React, Tailwind CSS, and JavaScript. Developed authentication systems, API integration, and CRUD operations.
- Gained practical experience in React for building responsive, dynamic user interfaces and connected apps to MongoDB for database management.
- Hands-on experience with Git, GitHub, and deployment on platforms like Netlify and Render.
